Index to Volume 126

January to June, 1969

Articles A

Abrasion-resistant Materials, Development of Copper-alloyed White Cast-iron Compositions as, 3
Advanced Courses in Foundry Technology offered in London, 539
Assessment of Strength of Grey Cast Iron on the Basis of Cooling Curves, 458
Austenitic Manganese-steels, Factors Influencing Toughness of, 373

Blackstone Foundry, The, 687
Blind Feeder-heads on Steel Castings, Use of, 567
Borough Polytechnic, Advanced Courses in Foundry offered at, 539

Castings for the Mill, 639
Cast Irons, Growth in, 203
Cast-iron Tunnel Segments for the Victoria Line, Production of, 635
Cement-sand Moulding Installation at Valmet Oy, Jyvaskyla, Finland, 288
Cerium, Structure and Properties of Heat-resistant Aluminium-containing Cast Iron inoculated with, 943
Computers in Foundries, 55
Control of Primary Coating and its Relation to Surface Finish, 847
Copper-alloyed White Cast-iron Compositions as Abrasion-resistant Materials, Development of, 3
Criteria of Management Organization, 875
Critical Appraisal of Steel Forgings and Castings 729

Development of Copper-alloyed White Cast-iron Compositions as Abrasion-resistant Materials, 3
Development of Sub-surface Strength in Self-hardening Moulding Materials, Instruments for examining, 531

Electric Furnaces, Preheating Charges for, 909
Expansion of Grey Cast Iron during Solidification, 245

Factors Influencing Toughness of Austenitic Manganese-steels, 373
Ferritic S.-g. Iron, Producing Heavy Castings in, 829
Flake-graphite Iron alloyed with Tin and Chromium, Structural Stability of, 115
Fluidized Moulding-sands bonded with Sodium Silicate, 281
Foundry Cupola, Supplementary Oil-firing of a, 79
Foundry Industry of Venezuela, 93
Further Observations on Interfacial Reactions between Vitreous Enamel and Metal (Steel and Cast Iron), 407

Grey Cast Iron on the Basis of Cooling Curves, Assessment of Strength of, 458
Grey Cast Iron during Solidifcation, Expansion of, 245
Growth in Cast Irons, 203

Hardy, J.J., & Sons, Limited open Combined Foundry and Machine-shop, 761
Heat-resistant Aluminium-containing Cast Iron inoculated with Cerium, Structure and Properties of, 943
Henley Foundries Thin-walled Castings at, 209

Improving the Quality of Iron Castings, 447
Induction-furnaces in the Ironfounding Industry, Refractory Linings for, 795
Industrial "Folk Museum" for Coalbrookdale, 912
Instruments for examining Development of Sub-surface Strength in Self-hardening Moulding Materials, 531
Interfacial Reactions between Vitreous Enamel and Metal (Steel and Cast Iron), Further Observations on, 407
Iron Castings, Improving the Quality of, 447
Ironfounding Industry, Refractory Linings for Coreless Induction-furnaces in the, 795

Kyoto "Diary", 123

Loughborough University Report on Autumn Term (Session 1968/69) Successes, 420

Moulding Materials, Instruments for examining Development of Sub-surface Strength in Self-hardening, 531
"Museum, Folk" for Coalbrookdale, Industrial, 912

National Foundry Craft Training Centre, Origin and Development of, 603
Non-ferrous Founder provides Complete Service, 761
Non-ferrous Founder, Synthetic Sands for the, 574

Oil-firing of a Foundry Cupola, Supplementary, 79
Origin and Development of the National Foundry Craft Training Centre, 603
Over my Shoulder ... Some Personal Foundry Recollections, 948

Preheating Charges for Electric Furnaces, 909
Producing Heavy Castings in Ferritic S.-g. Iron, 829
Production of Cast-iron Tunnel Segments for the Victoria Line, 635

Refractory Linings for Coreless Induction-furnaces in the Ironfounding Industry, 795

Shell-moulding of Steel Castings – a Critical Assessment, 481
Single-slag Basic Electric-furnace Steelmaking, 613

Sodium Silicate. Fluidized Moulding-sands bonded with. 281
Stanton and Staveley, Limited provide Cast-iron Tunnel segments for Victoria Line, 635
Steel Castings, Shell-moulding of – a Critical Assessment. 481
Steel Castings, Use of Blind Feeder-heads on, 567
Steel Forgings and Castings, Critical Appraisal of, 729
Steelmaking, Single-slag Basic Electric-furnace, 613
Structural Stability of Flake-graphite Iron alloyed with Tin and Chromium,115
Structure and Properties of Heat-resistant Aluminium-containing Cast Iron inoculated with Cerium, 943
Supplementary Oil-firing of a Foundry Cupola, 79
Surface Finish,Control of Primary Coating and its Relation to, 847
Synthetic Sands for the Non-ferrous Founder, 574

Thin-walled Castings at Henley Foundries, 209

Valmet Oy, Jyvaskyla, Finland, Cement-sand Moulding Installation at, 288
Vitreous Enamel and Metal (Steel and Cast Iron), Further Observations on Interfacial Reactions between, 407
